FRANK TATE'S OPINION.

Frank Tate, who is interested in several theaters in the city, was present at the meeting, and followed the transactions of the House closely. After the adournment of the House he said:

"The ordinance as amended is one of the best and safest pieces of theater legislation in the country. It is not only just to the theater owner, but it is absolutely safe to the theater companies to operate, while the original bill was almost prohibitive."

The building code ordinance originated in the Council and was passed by that body in its original form. When it reached the House it was referred to the Committee on Legislation, composed of Delegates Fontana, McAuliffe, Block (Edward M.), Norp and Griffin. This committee, after conterring with Building Commissioner Helmburger, proposed the amendments which considerably lightened the restrictions on theaters.

Delegate Kinney introduced the ordinance which provides for the appointment of a commission, to be composed of the Mayor, the President of the Board of Public Improvements, the Park Commissioner, the Fresident of the Board of Assessors, the City Treasurer and the Water Commissioner, and authorizes them to enter into negotiations with the World's Fair Company for the purchase by the city of a part or all of the World's Fair buildings for the purchase by the city of a part or all of the World's Fair buildings for the purchase by the city of a part or all of the World's Fair buildings for the purchase by the city of a second reading. Delegate Kinney immediately replied, and said that the bill stated nothing definite, and was introduced for the protection of the city, solely. "The amendatory bill," he stated, "says nothing definite, and is introduced for the protection of the city outright. It creates a commission and gives it full power, which is its real object."

DE ORO BREAKS WORLD'S RECORD

Cuban Finishes Pool Game With Run of Fifty-Eight, Smashing All Former Records.

In winning his game from Jerome Keogh of Buffalo last night, Alfredo De Oro of New York City established a new world's record by running the game out with the total of fifty-eight balls. This is the highest run ever made in a pool tournament, being three balls better than

the previous mark made by Weston several years ago. The final score was 1% for DeOro to 119 for Keogh, the latter player remaining anchored while his opponent electrified the spectators by his masterly play.

Apparently hopelessly beaten toward th close of the game, DeOro played the greatest uphili game ever witnessed in a championship tournament close of the game, DeOro played the greatest uphili game ever witnessed in a championship tournament and won the game strictly on his merits. Keogh played excellent pool and there was nothing about his game that contributed to the triumph of DeOro. The "Cuban Wonder" simply delivered the goods at the last moment, and was congratulated by Keogh. DeOro's performance was all the more remarkable because he has played little pool since he was here in the spring. On the opening night of the tournament his exhibition was anything but creditable. A few days' practice, however, brought him back to something approaching his old-time form. In the early frames of last night's game he seemed unable to control the cue ball, and this omission contributed to Keogh's big lead.

After apparently safe breaks by Keogh, DeOro made several successful combination break shots, only to find the cue ball frozen against the bunch, leaving him without a possible shot. At other times he suffered hard luck in his position play, and his early progress was anything but encouraging. When he mastered his stroke he played with more confidence, and none too soon, for when he got started right Keogh needed but one frame to win the game.

Keogh declared that he had no excuses

MRS. ANNA B. FRYE.

WHAT OVERWORK REALLY MEANS,

What a long story is condensed in that one word, which Mrs. Frye uses in her letter—as if "overwork" were a matter of course.

How many persons ever stop to realize that "overwork" simply means that their vitality has not been sufficient for the duties of the day—the work has probably been no more than a normally healthy person could do with ease.

Instead of calling it "over-work" it would be truer to speak of it as-"Under-vitality."

Remember, your strength is not in your musclesthe muscless simply work when the nerve force tells them to. Even your brain does not work by itself— the substance in your brain cells depends on getting energy with which to do its work; and this energy is nerve force—the same great power-of-life that actuates every function of the body.

Every form of weakness, or sickness, or disease, results from a lack of the strong nerve force which

should keep the organs working properly. When one speaks of "a good constitution," one

simply means a sound, strong nerve system. When the nerve system is not strong and well-nourished, it follows inevitably that one is easily "over-worked"—easily run down—just as Mrs. Frye

"As a tonic and invigorator I am sure nothing equals Paine's Cerely Compound. I have it always on hand.

"When weak and nervous, or restless from overwork, a dose of it soothes and strengthens me so that'! wake up bright and refreshed, and fully capable of going through a strenuous day's work."—Mrs. Anna B. Frye, 122 DeKalb Ave., Brooklyn, N. Y., August 5, 1904.

The nerves need food to keep up their strength. Their food is not the same food that we usually

Prof. Phelps, of Dartmouth University, was the first physician to enunciate the principle which to-day is recognized as one of the foundations of the science of medicine, -the great enlightening truth, that the nerve system rules all the body's health.

He sought and found the food that builds up and restores the nerves—his celery formula, which has become famous as Paine's Celery Compound—the

celebrated nerve vitalizer and tonic Doctors know and value this prescription and make constant use of it in their practice.

Its effect is almost instantaneous-the nourishment and vigor given to the nerve system by Paine's Celery Compound is felt at once. The patient feels this at once and gains confidence

by it. The stronger nerve forces have begun at once to

make each organ of the body do the work that nature expects of it.

Two days' treatment with Paine's Celery Compound will prove its marvelous power. Remember this -Paine's Celery Compound is the

prescription of one of the most famous physicians this country has ever known, and all reputable druggists sell and recommend it.

WHOOPING-COUGH

The spasms of coughing in whooping-cough may cause a rupture or bursting of a blood vessel, and before medical aid can be gotten it will be too late to save the child's life. Mothers, provide your home with a bottle of Dr. Bull's Cough Syrup for this emergency.

It cures whooping-cough, and can be given the heavy just as easily as the older child, because it tastes good. Thousands of mothers use it for whooping-cough, croup, colds, measles, etc.

Mrs. Maloney, 172 Aberdeen St. Chicago, Ills. writes: "My baby, ten months old, was taken with whooping-cough. I got a bottle of Dr. Bull's Cough Syrup. After giving her the third does as prescribed, the cough was not so severe and I had not given her one bottle in all, when her cough was completely gone.

DR. BULL'S

Be warned of the Substitute. Do not let the druggist sell you a substitute, tar or white pine mixture, which he says is "just as good" as Dr. Buil's Cough Syrup. He is calculating upon larger profit and not considering the health of your baby. Buy Dr. Buil's Cough Syrup and you will not be disappointed in a cure. Price, Sec. 500, and 1,000 at all druggists.
